

Women Creating Wealth Women in Agribusiness South Africa 2021

Apply to the Women Creating Wealth Programme

Do you want to:

- Be inspired, connected and strengthen your confidence, knowledge and skills to scale your business.
- Develop a knack for seeing and harnessing business opportunities.
- Develop strategies that attract markets, finance and talent to grow your business nationally, regionally and globally.

THEN: Apply to become part of the Women Creating Wealth, a Pan African network of businesswomen.

TESTIMONIALS

- “WCW worked magic on my confidence, my passion for excellence, persistence and taking calculating risks. I have increased the workforce/labour of the out-grower scheme from 300 to 1,250 registered farmers since I enrolled in the programme a year ago.
- “What makes this program special is that it taught me to work on my business instead of working in the business. It allowed me space to check in with myself first as a driver and helped to look at my business in different views so that I can come up with strategies to grow.

Women Creating Wealth (WCW) is a Pan African entrepreneurship development programme that has significantly grown the businesses and transformed the behaviours, skills, and confidence of women entrepreneurs. To date the Graça Machel Trust in partnership with Virgin Unite has graduated 400 entrepreneurs in Malawi, Tanzania Zambia & South Africa.
